

## **AIR QUALITY PERMIT NOTICE**

### **CONDITIONAL MAJOR PERMIT**

Flexcel – Danville F-06-042

Plant I.D. # 21-021-00021

A.I. #: 371

Activity #: APE20050002

Flexcel - Danville, LLC, a subsidiary of Kimball International, Inc., located in Danville, Kentucky manufactures upholstered furniture. Existing equipment at the site includes four paint booths, a natural gas-fired drying oven, and a woodworking operation consisting of many different types of planers, saws, sanders, routers and other miscellaneous types of equipment.

The source has submitted an application for a permit renewal. It currently holds a Conditional Major permit, F-00-0034 (Revision 1). There have been no changes in the plant operations since the latest permit revision, F-00-0034 (Revision 1). The PTE of VOC is over 250 tons per year and PTE of both single and combined HAP(s) are over the major source thresholds. However, the source has accepted emission limits pertaining to the HAP and VOC, which allowed it to be a Conditional Major / Synthetic Minor Source. These limits are 90, 9.0 and 22.5 for VOC, single HAP and combined HAPs, respectively.

A preliminary determination was made to approve the permit and public notice was placed in The Advocate Messenger on August 28, 2006. The comment period expired on September 27, 2006 and no comments were received.

In conclusion, a thorough analysis has been made of all relevant information available that pertains to this application. The Division has concluded that the source will comply with all applicable air quality regulations and requirements. Compliance with the terms of the permit will ensure compliance with all air quality requirements. Therefore, it is the Division's final determination that a Conditional Major Permit 401KAR 52:030 should be issued as conditioned.
